RC also recall that presently in case of an application for formulation import the technical of the same is also required to be registered simultaneously with the registration of formulation. RC in the above context observed that the present application is for the grant of registration for import of MUP-HAIP (manufacturing use product – high active ingredient product) 1-methylcyclopropene 4.5 % w/w minimum. The applicant had complied with the requirements laid down in the guidelines and had provided the entire details in the statutory Form-I along with the requisite information on Chemistry, Efficacy, Toxicity, Packaging. The RC had also perused the ATRs received from CIL and test reports from ICAR, Pune. RC further observed that the requisite source verification has also been done. Although, it has been somehow indicated in the agenda that chemical composition in Form-I and an affidavit submitted along with the captioned application is at variance with the ATR received from the CIL. In this context RC perused the Form-I and the ATR submitted with the agenda and observed that the chemical composition is well within the prescribed limits and apparently RC of the view that there is no major concern as far as the chemical composition claim by the applicant vis-a-vis the results conveyed by CIL through ATRs. RC after a considerable deliberation decided to approve the above product subject to the submission of a fresh affidavit duly sworn on NJSP in accordance with law as to the claim of the chemical composition and the applicant shall abide with the conditions laid down in the CR. The product shall be imported from M/s AgroFresh Inc., located at 510-530 Walnut Street, Suite 1350, Philadelphia PA 19106, USA and shall be valid until withdrawn from the source country. |

| | RC deliberated the agenda in detail and perused the communication dt 16.4.2025 received from DA&FW. RC having high regards to the observation in the said communication observes that under the provisions of the Insecticides Act, 1968 RC has been entrusted with the responsibility of granting or otherwise of the registrations under extant provisions including the provisional registration under 9(3B) of the Act. The provisional registration is valid to a specified period of 2 years unless extended by the RC for further periods and the applicant has to start the manufacturing activities which also mandatorily require obtaining of license to manufacture the said product from the concerned State Government as provided under Rule 11 of the Insecticides Rules, 1971. RC also observes that although the decision in question had been taken to minimize the burden of compliances especially in view of the fact that the applicant may have carried out substantial progress in generating the data as per the requirements. RC further observes that there is no SOP / guidelines in place w.r.t. observation made by DA&FW, which appears to be necessary for all future purposes to clear out any ambiguity in the process of grant of commercialization by the statutory authorities. In this context a draft SoP is at annexure 10.22.1. Sectt. of CIB&RC is directed to communicate the same to the Competent Authority at DA&FW for kind consideration so that the same may be implemented as approved. |

RC directs the concerned expert to ensure bringing of the agenda with all the relevant documents in the next RC meeting. |
| 10.33 | Follow up agenda for re-opening of application of M/s Krishi Rasayan Exports, for grant of registration of technical import of Cyazofamid technical 94% w/w min. u/s 9(3) TI |
| | RC perused the agenda and observed that the above matter had been rejected by the RC in its 460 th meeting vide agenda item 6.53 on the ground that the original ICAMA certificate and the consent letter from the manufacturer was not submitted by the applicant. RC on perusal of the agenda also observed that the applicant has requested to reopen the application and has now submitted the consent letter from the manufacturer and original ICAMA in hard copy at Sectt. of CIB&RC. RC observes that the concerned expert has not placed the above documents in the Agenda which is essentially required to be examined. RC directs the concerned expert to ensure bringing of the agenda with all the relevant documents in the next RC meeting. |

| 10.37 | Follow up agenda for consideration of an application of M/s Rainbow Agroscience Pvt. Ltd., for grant of registration for technical import of Imazethapyr technical 97% w/w min. u/s 9(3) TI. |
| | RC perused the Agenda and observed that the concerned expert has placed a comparative table regarding the chemical w.r.t. the above product vis a vis a 9(3) TIM registrant. RC apparently observes that there is a variance in purity / impurity profile percentage. For understanding the issue with better clarity RC directs the concerned expert to seek a clarification in this regard, if not sought earlier from the applicant and bring the entire facts in a detailed form so as to enable the RC to form an appropriate view. |
| 10.38 | Consideration and compliance of the order dated 02.05.2025 passed by the Hon'ble Appellate Authority in appeal no. 01/2025 filed by M/s Rainbow Agro Science Pvt. Ltd., vs CIB&RC. |

| | |
|--------------|--|
| | RC perused the agenda submitted by the concerned technical expert wherein it was indicated that the applicant M/s Rainbow had relied upon certain precedents wherein the RC has granted the registrations of more than 100% composition. However, the RC observes that the purported precedents pertain to grant of registration u/s 9(4) TIM and the present matter is related to TI vs TIM u/s 9(3). RC is of the view that the same are not applicable in the present matter. Further, RC in detail perused that chemical equivalence as claimed by the applicant is inconsistent with the 9(3) registrant under TIM category. As per the registration application made by the applicant the purity of the active ingredient of the product under reference has been claimed to be 97.0 % w/w minimum along with 5 numbers of impurities. The same has been claimed in accordance to the purity of the product in the source country however, number and kind of impurities are claimed to be same as that of TIM registrant which is registered at 95% w/w. Further, the limits of four impurities are claimed to be same as that of earlier registrant making it a total of 100.90% which is contradictory as the TIM registrant is having a composition of 100.0%. RC in terms of the observations made by the Hon'ble Appellate Authority and after thorough re-examination of the scientific parameters reiterates its stand taken in the impugned decision. |

| | RC deliberated the agenda and observed that applicant applied for endorsement for inclusion of already approved additional source of Cartap Hydrochloride Technical 98 % min for import. The application was placed in 462 nd RC and source name was approved. However, since the applicant being 9(4) category registrant the consent from source was through supplier in line with the 9(3) registrant. Accordingly, the application is placed for inclusion of supplier name this time. In view of above the following is approved: Name of Source: M/s M/s JIANGXI OUSHI CHEMICAL CO., LTD Salt Industrial Zone, Xingan county, Ji'an city, Jiangxi province, China |

| | <p>RC deliberated the agenda and observed that the application initially put up to 453rd RC vide agenda item no 7.37 and the decision of the RC is as under: -</p> <p>“RC deliberated the agenda and rejected the case as the ATR from CIL is found non-satisfactory.” Thereafter, on the request of applicant as per 360 RC decision a team was deputed for drawl of sample for the PRV purpose from company manufacturing premises and the same was submitted at CIL for analysis. The revised ATR of the product Propargite Technical 90% min. w/w has been received from the Central Insecticides Laboratory was put up to 461st RC meeting vide agenda item 10.35 and the same was inadvertently reflected as approved. However, it was observed that being follow up agenda the application was not mapped and CR was not issued and the case was put up again in 463rd RC meeting vide agenda item 10.22 and the decision of the RC is as under: -</p> <p>“RC deliberated the agenda and deferred the case for want of clarification from CIL about chemical composition analysis.”</p> <p>Therefore, in view of above observations the applications shall be considered approved subject to the satisfactory clarification from CIL about chemical composition analysis.</p> |

| 10.47 | <p>Follow up agenda for consideration of an application of Liford Pharmaceuticals LLP for grant of import permit of Hydrogen cyanamide 50% under non-boric category.</p> |
| | <p>RC deliberated the agenda and observed that vide its decision in its 459th meeting in agenda item no. 10.34. (Annexure-10.34.1) at Serial no. 13 under the category Import Permit List for IM-1028 of Liford Pharmaceuticals LLP was Deferred for the want of clarification on end-</p> |

Hence, RC approved the mentioned quantity as recommended above for the stated purpose. RC also directed that the applicant shall be required to submit NOC from State Drugs Standard Control Organization (SDSCO) within 3 months of issuance of Import Permit to ensure its use for the referred purpose. |
| 10.48 | GLP/NABL accredited laboratories for generating data on the registration of pesticides. |
| | RC perused the agenda and endorsed that data generated by GLP and NABL labs is accepted for registration purpose. It also observed that the earlier practice of inspection and approval of GLP/NABL accredited laboratories by the CIB&RC was replaced and a system of uploading on DPPQ&S website the list of NABL/GLP accredited labs along with their scope and validity was commenced. In this regard RC decided that to avoid the lag in updation of accreditation status of laboratories and also the fact that the information regarding the accreditation status of any testing laboratory is already available in public domain on the official websites of both NABL as well as NGCMA, DST (for GLP), a hyperlink to both these resources may be made available on the official website of this directorate, to enable the verification of the accreditation status of the laboratories involved in generating data for registration of pesticides purposes and the system of publishing and updating list of NABL and GLP laboratories on DPPQ&S website may be done away with. A public Notice to this effect may also be issued for wider dissemination of the decision to the stakeholders. |
| 10.49 | Verification conducted for consideration of an application of Raghav Productivity Enhancer Ltd., for grant permission for import of Boric acid. |
